

## OUTPLACEMENT COACHING

### Do you help your exiting employees transition with dignity and respect?

Losing a job is one of life's top stressors and what people need to transition successfully is support to help normalize the situation, stabilize emotions, and help to craft an executable plan that will get results.

Meridian offers outplacement programs driven by outcome, not process. Each person is paired with a dedicated coach who provides full support no matter how long it takes. We meet them where they are to provide the specific support they need to land a great opportunity as well as transitioning into the new role.
